

WEYERMANN® Bamberger Hofbräu® Exquisator

Beer description

Lent is traditionally the time for dark double bock beers. We have followed up the old tradition of Bamberger Hofbräu® and re-brewed the well-known Exquisator according to a historical recipe. In the glass, the strong bock shines in dark maroon colors, crowned by fine-pored, beige foam. A delightful combination of caramel, malt notes, and roasted chestnuts, is perfectly rounded up by slightly herbal notes of the hops. The initial taste is warming, then the rich bock beer embeds itself into the malty-aromatic body and induces to drink more - thanks to its well-balanced composition of hops. Back in the Middle Ages the friars already knew "Liquida non frangunt ieiunum" - Latin for "liquids do not break the rule of lent".
A perfect beer for lent, though, which seduces to break the rules and have a typical Franconian "Schäuferla" (pig shoulder) with it.

Beer style

Dark Doppelbock beers are bottom-fermented, with a color range to dark brown, and white to beige colored head. Their aroma is quite complex. A deep malt and roast character may be found besides sweet berry notes. The initial impression on the palate is sweet, followed by a strong body and a creamy aftertaste.
